STRAWBERRY CLOVER. Western Colorado grown seed. It thrives on wet, seepy soil, even though there is a lot of alkali. Best suited for pasture; spreads from root and seed—a perennial plant. Requires 3 pounds of seed per acre For prices see list.

ORCHARD GRASS

Western Colorado High Altitude Grown

Fine Quality, bright and heavy. Just the seed for your high altitude Pasture or Meadow.

HYBRID CORN

See Catalog Page 15 for Description.
We stock four maturities of Iowa Hybrid.

"S" matures in about 90 days;
"A" matures in about 100 days;
"AQ" matures in about 105 to 110 days;
"No. 25" matures in 120 days.

It is important to order the corn to fit your season as near as possible. The later maturing the deeper the kernel and heavier yield. When ordering, use these symbols. "S"—"A"—"AQ"—and "No. 25,"
